The enforcement first report is complete. We are in a fund lead RI. We do not have sample results back yet.

Think we need a call---will you send an invite for either Monday or Tuesday of next week for you , me, Todd, and Amy to talk about the open house?

thanks

Katrina,
That's fine if ODEQ wants to do the fact sheet. I will be happy to contribute, or work up one, and send it to Todd. I would need the results of the sampling, or a paragraph about what we learned and our direction from this point forward. I think we are still waiting for enforcement results, before we proceed, is that correct?

Thanks,
Bill

Bill, the week of the 21st is good. I believe Todd indicated the same when I spoke with him last.

I think that the handouts from last time and the posters are good to have. Also, Todd and I are talking about the factsheets. We do not see the benefit of having one that ODEQ does and one that EPA does. We are still working out who will be lead on these. My suggestion was ODEQ since the factsheets are more colorful.

Katrina,

I will get the room for the week of the 21st, the next week I have a commitment. I will be happy to present if you want me to. I will have the same kind of handouts on Superfund I had last time. Did you hear from Todd?

Thanks,

Bill

Bill, we need to start planning the open house for September as well as a summary fact sheet. Please find a time during the week of either September 21 or September 28.

I am thinking that we can use the posters from the last meeting and also have the ODEQ interactive map set up for those that arrive early or stay late to ask questions. The main event will be a short presentation on the Superfund process and the activities we have taken and are planning for the immediate future.

Todd, thoughts? In addition, I am not partial to being the presenter. If you would like to be the presenter, then I am OK with that.

thanks
